Your technical staffing needs are
in safe hands with us!

PIEZOS
Technology Solutions, Inc.

About us

What Makes Piezos Unique?

We care. We take the time to understand your needs and build solutions that add value to your company. Our combined project management experience, skill and flexibility are assets that will transform your enterprise and help you meet your expected outcomes.

Our Vision

Our vision is to provide the highest quality, technical staffing solutions. Our character and values are rooted in simply doing for our clients what we would want done for us. We are big on relationships. We believe in maintaining integrity and respect. Piezos are connectors. Our mission is to make quality connections that aide in the advance technology.

What do we do?

01

Business Process Outsourcing

Our processes, workflow methodologies and best practices governance can boost quality and customer satisfaction. We can successfully reengineer your business processes to improve your competitive edge and help your organization grow.

02

Web Design Services

We believe that every client is distinct, every project unique. Our style is clean, uncluttered, and steeped in the principals of design. What we lack in über-creativity is made up for in precision hierarchy.

03

Project Consulting

We can provide the necessary manpower to help you meet deadlines, fill your team's technical competency gaps, lead and manage software projects (whether on-site, off-site, or outsourced).

04

Telecom

We have a dedicated team of specialist consultants across fixed and mobile with holistic understanding of the telco ecosystem. We have a successful track record of placing skilled technical professionals with Tier One vendors and operators across USA.

05

Mobility

we have a dedicated team of specialist Mobile App consultants with a thorough understanding of mobile development across the lifecycle. They have a successful track record of placing skilled technical professionals in positions such as iOS developers, Android developers, UX Designers and Agile Project Managers.
